A Message Regarding The Federal Government Shutdown

January 23, 2019

On December 21, 2018, at midnight, the Federal Government entered a partial shutdown. As a result, funding expired and work ceased across nine federal departments. The U.S. Department of Housing and Urban Development (HUD) is one of the affected agencies.

During a shutdown, the government discontinues providing services that are not deemed “essential” due to the absence of appropriations.

The ongoing partial shutdown of the U.S. government will not immediately disrupt the lives of St. George Housing Authority's (SGHA) 260 residents, 200 landlords or our 4 employees.

SGHA received HUD’s standard monthly payment in January 2019, ensuring that SGHA’s programs and services will remain fully funded through the month. In addition, HUD’s February funding has been obligated and scheduled for release to SHGA on Feb. 1, 2019, ensuring the agency funding through February.

Please be assured that we are closely monitoring this matter. This is an unsettling time and we will do our best to maintain open lines of communication and keep you informed of any potential changes to our operations due to the shutdown.

Respectfully,

Mike Barben

Executive Director St. George Housing Authority
